Hazardous Building Components must be disposed of in accordance with County, State and Federal Law.

Fluorescent Light Bulbs that contain *mercury*. Mercury filled 4ft., 8ft., U-tube, circline, and compact florescent lamps are the most common types of florescent bulbs encountered.

High Intensity Discharge (HID) lamps that contain *mercury*. These lamps are often encountered in security and outdoor lighting applications. HID are also found indoor, high ceiling work areas such as, warehouses and supermarkets.

Thermostats that use *mercury* as a switching mechanism. The number of ampoules containing mercury depends on the temperature cycle and type of thermostat.

Mercury-bearing wall switches that use *mercury* as an electrically conductive switching mechanism. These "silent switches" are no longer manufactured, but they can still be found in older structures. Numerous industries also use mercury for various types of switches and relays.

Lighting ballasts for florescent light bulbs and HID lamps. These items may contain *Poly-chlorinated Biphenyls (PCBs)*, as well as other toxic chemicals such as, bis(2-ethylhexyl)ester di(2-ethylhexy) phthalate (DEHP).

Batteries encountered in emergency lighting, exit signs, security systems, and alarms. These batteries may contain *lead* and *cadmium*.

Lead Roof Flashing used to protect roof vents. Flashings mold easily and often contain pure *lead*.

Other Lead objects as *lead pipes* and *lead painted surfaces*. Surfaces such as, door frames and window sills may be easily removed.

Other hazardous materials such as discarded *paint, oil, pesticides, cleaners,* and other chemicals.

Township of South Fayette Permit Agreement

In consideration of the issuance by the Township of South Fayette (the "Township") of a Building Permit, Zoning Permit and other permits for the property located at address,

_____ and to the undersigned property owner(s) or the agent (the "Applicant"), the Applicant acknowledges that, in reviewing plans and specifications, in issuing permits and inspection work of the Applicant; the employees, consultants, elected or appointed official of the Township are only performing their duties to require compliance with the minimum requirements of the applicable ordinances of the Township and the Pennsylvania Uniform Construction Code pursuant to the police power of the Township and are not warranting to the Applicant or to any third party the quality of adequacy of the design, engineering or work of the Applicant or their agents or contractors.

Applicant further acknowledged that although plan review and inspections will be provided, it will not be possible for the Township to review every aspect of the Applicant's design and engineering or to inspect every aspect of the Applicant's work. Accordingly, neither the Township nor any of its elected appointed officials, consultants or employees shall have any liability to the Applicant for defects or shortcomings in such design, engineering or work, even if it is alleged that such defects or shortcomings should have been discovered during the Township's review or inspection, Furthermore, the Applicant agrees to defend, hold harmless and indemnify the Township, its elected officials, consultants and employees from and against any and all claims, demands, actions, and causes of actions of any one or more third parties arising out of or relating to the Township's review or inspection of the Applicant's design, engineering, or work or issuance of a permit or permits, or arising out of or relating to the design, engineering or work done by Applicant pursuant to such permit or permits. All references in this Agreement to Applicant's design, engineering or work shall include such design, engineering, and work, which is performed by the Applicant or by the Applicant's employees, agents, independent contractors, subcontractors or any other person or entities performing work pursuant to the issuance of the Building Permit, Zoning Permit and other Permits by the Township.
